

General Unit Information

Manufacturer: Carrier

Model Number: 48P3L0506S0LL47114

Serial Number: 1718049767

Work Order / Special Order: 009000603909

Special Order Unit: 47114

Job Number: 2420437

Production Date: 04/2013

Electrical Data

Main Power

Voltage: 460V / 3 Phase / 60 Hz

MCA (Minimum Circuit Ampacity): 128 A

MOCP (Max Overcurrent Protection): 150 A

Gas Heat Data

Input Capacity

Input (Low): 488,000 BTUH (143.0 kW)

Input (Max): 650,000 BTUH (190.5 kW)

Output Capacity

527,000 BTUH (154.5 kW)

Fuel

Equipped for Natural Gas

Refrigeration Data

Test Pressures

High Side: 650 PSI (4482 kPa)

Low Side: 477 PSI (3289 kPa)

Certifications

ANSI Z21.47

CAN/CGA 2.3-1993

UL 1995

ANSI 89.1

For Outdoor Installation Only

Special Product Information

Special Product: Use entire model and S.O. numbers for service inquiries

Special Features: Shaft grounding ring on IFM

Special Order Components (appears listed)

IO Board

GO Motor Assy

Supply Motor 10 HP

Additional Alternate Model Listed (Special Order Tag)
